SECTION 01

GQSP Overview

For more than two decades, the United Nations Industrial Development Organization (UNIDO) and the Government of Switzerland, through the State Secretariat for Economic Affairs (SECO), have partnered to support partner countries in strengthening competitiveness through quality and standards compliance. This cooperation responds to the increasing role of technical regulations and standards as determinants of market access and participation in global value chains.

The Global Quality and Standards Programme (GQSP) was established to consolidate and scale this cooperation through a programmatic approach.

Outcome 1: National Quality Infrastructure Strengthened

Policy Dialogue & Legislative Support

Technical support was provided to national authorities in advancing policy dialogue on the proposed National Quality Infrastructure Development Act, including participation in technical and legislative consultations.

Capacity Building & Specialized Training

The Philippine Medical Textile Testing Center (PMTTC) under Department of Science and Technology- Philippine Textile Research Institute (DOST-PTRI) was strengthened through the development of a business plan and implementation roadmap, targeted capacity-building, and specialized laboratory training on PPE testing methods.

Preparation for International ISO Accreditation

Support was provided to prepare PMTTC for ISO/IEC 17025:2017 accreditation in microbiological testing.

SECTION 07

The First NQI Conference

The First National Quality Infrastructure Conference was jointly organized by DTI and UNIDO, with support from DOST, under the framework of GQSP Phase II. The conference convened more than 250 stakeholders from government, industry, academia, and development partners.

The event served as a national platform to:

Raise awareness of the role of an integrated NQI in competitiveness and trade facilitation

Align quality infrastructure reform with the Tatak Pinoy Act (RA 11981) and national industrial policy objectives

Strengthen public-private dialogue and inter-agency coordination

Keynote messages

Keynote messages were delivered by Dir. Lilian G. Salonga on behalf of Hon. Ma. Cristina Aldeguer-Roque, Secretary of the Department of Trade and Industry (DTI); Dr. Rafaelita Aldaba, Strategic Advisor, on behalf of Hon. Sonny Angara, Secretary of the Department of Education and principal author of the Tatak Pinoy Act (RA 11981); Sec. Renato U. Solidum Jr. of Department of Science and Technology (DOST); H.E. Dr. Nicolas Brühl, Ambassador of Switzerland to the Philippines; and Mr. Ciyong Zou, Managing Director, UNIDO.

Country Representative

United Nations Industrial Development Organization

Breakout sessions on Standardization, Metrology, and Accreditation/Certification generated dynamic discussions and actionable recommendations to strengthen the country's quality ecosystem.

Atty. Regino D. Mallari Jr.
Assistant Secretary
DTI Fair Trade Group.

The event culminated in the presentation of the Manifesto of Support for the immediate passage of the NQI Development Act, followed by closing remarks from Atty. Regino D. Mallari Jr., Assistant Secretary, DTI Fair Trade Group.

A key outcome of the conference was the signing of the Manifesto of Support for the NQI Development Act, reinforcing collective commitment to institutionalizing a coherent and sustainable national quality infrastructure system.
